Subject index

Acid solutions
The electrochemical behaviour, on mercury, of gossypol in the acid pH region in mixed aquo-acetone solvent (Tonholo et al.) 61
Adsorbate desorption
On interfacial dynamics: capacitance transients accompanying partial desorption (Kurtyka et al.) 343
Adsorbed complex
Electrochemistry of the Cu(II) complex of 4,7-diphenyl-1,10-phenanthrolinedisulfonate adsorbed on graphite electrodes and its behavior as an electrocatalyst for the reduction of O_2 and H_2O_2 (Zhang, Anson) 323
Adsorbed enzymes
The electrocatalytic enzyme function of adsorbed cytochrome *c* peroxidase on pyrolytic graphite (Scott et al.) 307
Adsorption processes
The elucidation of hydrogen and anion adsorption on Pt(111) through the co-adsorption of metal adatoms and carbon monoxide (Adžić et al.) 287
Alloy electrodes
The kinetics of the reduction processes of PbO film in H_2SO_4. Part 4: effects of Pb + Ca alloy electrodes (Guo) 275
Amalgam formation
Double-potential-step chronoamperometry in the study of amalgam-forming and non-amalgam-forming systems at spherical electrodes (HMDE and DME). Analysis of the discrepancies between experimental results and theoretical predictions for amalgam formation (Galvez et al.) 209
Ammonium fluoride
Wavelength-dependent photocurrent multiplication during the anodic dissolution of n-Si in ammonium fluoride solutions (Paolucci et al.) 165
Aqueous medium
The reduction mechanism of aromatic nitro compounds in aqueous medium. Part II. The reduction of 4-nitropyridine between $H_0 = -6$ and pH 9.6 (Laviron et al.) 227
Aqueous solutions
Fast electrochemical reactions during the anodization of platinum electrodes in aqueous solutions. Detection of a reversible charge storage process at platinum-oxide-coated electrodes (Bolzán, Arvia) 93
Aquo-acetone solvent
The electrochemical behaviour, on mercury, of gossypol in the acid pH region in mixed aquo-acetone solvent (Tonholo et al.) 61
Aromatic nitro compounds
The reduction mechanism of aromatic nitro compounds in aqueous medium. Part II. The reduction of 4-nitropyridine between $H_0 = -6$ and pH 9.6 (Laviron et al.) 227
Artificial muscle
Electrochemomechanical properties from a bilayer: polypyrrole/non-conducting and flexible material — artificial muscle (Otero et al.) 369

Basic solution
The electrochemical behaviour, on mercury, of gossypol in the acid pH region in mixed aquo-acetone solvent (Tonholo et al.) 61
Biosensor
Cellobiose oxidase crosslinked in a redox polymer matrix at an electrode surface—a new biosensor (Elmgren et al.) 257

Calcium-ion-selective electrode
Study of protein effect on calcium-ion-selective membranes by using a.c. impedance methods (Covington, Zhou) 77

Capacitance transients
On interfacial dynamics: capacitance transients accompanying partial desorption (Kurtyka et al.) 343
Carbon monoxide
The elucidation of hydrogen and anion adsorption on Pt(111) through the co-adsorption of metal adatoms and carbon monoxide (Adžić et al.) 287
Cellobiose oxidase
Cellobiose oxidase crosslinked in a redox polymer matrix at an electrode surface—a new biosensor (Elmgren et al.) 257
Chronoamperometry
Double potential step chronoamperometry and related pulse techniques at spherical electrodes (Galvez et al.) 15
Cottrell Behavior
Modified Cottrell behavior in thin layers: applied voltage steps under diffusion control for constant-resistance systems (Nahir, Buck) 1
Cyclodextrins
Selective inclusion of methylviologen by β-cyclodextrin: effect of cyclodextrins on the electrochemistry of methylviologen (Sivagnanam, Palaniandavar) 197

Desorption transients
A simple model for desorption transients (De Levie, Vogt) 353

Electrocatalyst
Electrochemistry of the Cu(II) complex of 4,7-diphenyl-1,10-phenanthrolinedisulfonate adsorbed on graphite electrodes and its behavior as an electrocatalyst for the reduction of O_2 and H_2O_2 (Zhang, Anson) 323
Electrocatalytic function
The electrocatalytic enzyme function of adsorbed cytochrome *c* peroxidase on pyrolytic graphite (Scott et al.) 307
Electron transfer
Electron-transfer reaction of polyethylene-oxide-modified myoglobin in polyethylene oxide oligomers (Ohno, Tsukuda) 137
Enzyme electrode
Cellobiose oxidase crosslinked in a redox polymer matrix at an electrode surface—a new biosensor (Elmgren et al.) 257

Glucose oxidase
Enhancement of the electron transfer between a mediator-adsorbed glucose oxidase and an electrode by treatment with urea (Kajiya, Yoneyama) 85
Gossypol
The electrochemical behaviour, on mercury, of gossypol in the acid pH region in mixed aquo-acetone solvent (Tonholo et al.) 61

Immiscible electrolyte solutions
Computer analysis of photoinduced charge transfer at the ITIES in protoporphyrin–quinone systems (Kotov, Kuzmin) 47
Impedance response
The impedance response of electrochemically roughened platinum electrodes. Surface modeling and roughness decay (Real et al.) 181
Impedance spectroscopy InP-photoelectrode
Impedance and intensity modulated photocurrent spectroscopy as complementary differential methods in photoelectrochemistry (Schefold) 111
Interfacial dynamics
On interfacial dynamics: capacitance transients accompanying partial desorption (Kurtyka et al.) 343
Interfacial excess
A simple model for desorption transients (De Levie, Vogt) 353
Isomeric forms
Electrochemistry of the Cu(II) complex of 4,7-diphenyl-1,10-phenanthrolinedisulfonate adsorbed on graphite electrodes and its behavior as an electrocatalyst for the reduction of O_2 and H_2O_2 (Zhang, Anson) 323

Lead oxide film
The kinetics of the reduction processes of PbO film in H_2SO_4. Part 4: effects of Pb + Ca alloy electrodes (Guo) 275

Mediator adsorption
Enhancement of the electron transfer between a mediator-adsorbed glucose oxidase and an electrode by treatment with urea (Kajiya, Yoneyama) 85

Metal adatoms
The elucidation of hydrogen and anion adsorption on Pt(111) through the co-adsorption of metal adatoms and carbon monoxide (Adžić et al.) 287
Methylviologen dication
Selective inclusion of methylviologen by β-cyclodextrin: effect of cyclodextrins on the electrochemistry of methylviologen (Sivagnanam, Palaniandavar) 197
Microband-array electrode
Investigation on microelectrodes. Part XVI. Study of the shielding effect at a microband-array electrode (Ju Huangxian et al.) 35
Myoglobin
Electron-transfer reaction of polyethyleneoxide-modified myoglobin in polyethylene oxide oligomers (Ohno, Tsukuda) 137

4-Nitropyridine
The reduction mechanism of aromatic nitro compounds in aqueous medium. Part II. The reduction of 4-nitropyridine between $H_0 = -6$ and pH 9.6 (Laviron et al.) 227

Photocurrent spectroscopy
Impedance and intensity modulated photocurrent spectroscopy as complementary differential methods in photoelectrochemistry (Schefold) 111
Photodissolution silicon
Wavelength-dependent photocurrent multiplication during the anodic dissolution of n-Si in ammonium fluoride solutions (Paolucci et al.) 165
Photoelectrochemistry
Impedance and intensity modulated photocurrent spectroscopy as complementary differential methods in photoelectrochemistry (Schefold) 111
Photoinduced charge transfer
Computer analysis of photoinduced charge transfer at the ITIES in protoporphyrin–quinone systems (Kotov, Kuzmin) 47
Platinum electrodes
Fast electrochemical reactions during the anodization of platinum electrodes in aqueous solutions. Detection of a reversible charge storage process at platinum-oxide-coated electrodes (Bolzán, Arvia) 93
The impedance response of electrochemically roughened platinum electrodes. Surface modeling and roughness decay (Real et al.) 181
The elucidation of hydrogen and anion adsorption on Pt(111) through the co-adsorption of metal adatoms and carbon monoxide (Adžić et al.) 287
Poly(3-alkylthiophenes)
Voltammetric properties of poly(4,4′-dialkyl-2,2′- bit iophenes) and poly(3-alkylthiophenes) (Łapkowski et al.) 151
Poly(4,4′-dialkyl-2,2′-bithiophenes)
Voltammetric properties of poly(4,4′-dialkyl-2,2′- bit iophenes) and poly(3-alkylthiophenes) (Łapkowski et al.) 151
Polyethylene oxide oligomers
Electron-transfer reaction of polyethyleneoxide-modified myoglobin in polyethylene oxide oligomers (Ohno, Tsukuda) 137
Polypyrrole
Electrochemomechanical properties from a bilayer: polypyrrole/non-conducting and flexible material — artificial muscle (Otero et al.) 369
Polyvinyl chloride membrane
Study of protein effect on calcium-ion-selective membranes by using a.c. impedance methods (Covington, Zhou) 77
Protein adsorption
Study of protein effect on calcium-ion-selective membranes by using a.c. impedance methods (Covington, Zhou) 77
Protoporphyrin–quinone systems
Computer analysis of photoinduced charge transfer at the ITIES in protoporphyrin–quinone systems (Kotov, Kuzmin) 47
Pulse techniques
Double potential step chronoamperometry and related pulse techniques at spherical electrodes (Galvez et al.) 15

Quartz crystal microbalance
In situ measurements of water adsorption on a platinum electrode by an electrochemical quartz crystal microbalance (Shimazu, Kita) 361

Redox polymer matrix
Cellobiose oxidase crosslinked in a redox polymer matrix at an electrode surface—a new biosensor (Elmgren et al.) 257

Reduction mechanism
The reduction mechanism of aromatic nitro compounds in aqueous medium. Part II. The reduction of 4-nitropyridine between $H_0 = -6$ and pH 9.6 (Laviron et al.) 227
Reduction processes
The kinetics of the reduction processes of PbO film in H_2SO_4. Part 4: effects of Pb + Ca alloy electrodes (Guo) 275
Reversible charge storage process
Fast electrochemical reactions during the anodization of platinum electrodes in aqueous solutions. Detection of a reversible charge storage process at platinum-oxide-coated electrodes (Bolzán, Arvia) 93

Selective inclusion
Selective inclusion of methylviologen by β-cyclodextrin: effect of cyclodextrins on the electrochemistry of methylviologen (Sivagnanam, Palaniandavar) 197
Shielding effect
Investigation on microelectrodes. Part XVI. Study of the shielding effect at a microband-array electrode (Ju Huangxian et al.) 35
Spherical electrodes
Double potential step chronoamperometry and related pulse techniques at spherical electrodes (Galvez et al.) 15
Double-potential-step chronoamperometry in the study of amalgam-forming and non-amalgam-forming systems at spherical electrodes (HMDE and DME). Analysis of the discrepancies between experimental results and theoretical predictions for amalgam formation (Galvez et al.) 209

Thin Layers
Modified Cottrell behavior in thin layers: applied voltage steps under diffusion control for constant-resistance systems (Nahir, Buck) 1

Urea
Enhancement of the electron transfer between a mediator-adsorbed glucose oxidase and an electrode by treatment with urea (Kajiya, Yoneyama) 85

Voltammetric behaviour
Voltammetric properties of poly(4,4′-dialkyl-2,2′- bit iophenes) and poly(3-alkylthiophenes) (Łapkowski et al.) 151

Water adsorption
In situ measurements of water adsorption on a platinum electrode by an electrochemical quartz crystal microbalance (Shimazu, Kita) 361
